Road trip bingo app

Few things are better than hitting the open road on a cross-country road trip. Whether you point out the best buds or loading your kids into your car to visit relatives in some states with a little app prep will make sure your trip goes as smooth as possible. Read more. The best phone car holders for any phone! Android Auto Waze Google Trips Yelp GasBuddy Spotify Netflix Android Auto If the car doesn't have Android Auto feature built into its stereo system, it's worth checking out the Google app to stay connected to the car. It is now available on any Android phone, so you don't have to buy a brand new car or upgrade your car stereo to take advantage of its convenience – it just runs directly on your phone and can be set to start automatically when you connect your car to Bluetooth or Bluetooth FM transmitter. Android Auto is the safest way to access your phone while driving, giving you one-touch access to navigation, music controls, and recent calls. As you'd expect, Google Assistant has great support, including aloud reading of incoming text messages (though, it's not the best option if it's full of friends or family). Android Auto lets you navigate using Google Maps, listen to playlists or podcasts from your favorite apps, send messages over voice, and more, while eliminating other ways your phone can distract you on the road. As you're on the road this summer, you should definitely download this app to your phone. Download: Android Auto (Free) Waze While Google Maps remains the most popular navigation app for Android (largely due to its inclusion as a stock app on most Android devices), Waze is a great way to consider all your GPS navigation needs. Waze users benefit from all information from other Waze users on the road, including accident reports, police traps and other hazards on the road. We also encourage you to add your own updates and contribute to your local Waze community. Using all this data, Waze automatically redirects you to avoid imminent dangers and has very clever features to find the cheapest gas stations along the way, as well as ways to track family and friends on ETA. Download: Waze (free) Google Trips Google Trips is a great travel planning app that helps you track some of the everyday aspects of your trip, such as bookings, while helping you plan your days in a new city by suggesting cool things based on your interests and time available. If you plan to make a pitstop your way to your final destination, connect your city to the app and see what it generates! It is also available offline, so if you box street, you'll know even if your phone's data dies out. Download: Google Trips (Free) Yelp When you discover a new city to figure out what we are Sign up, you'd better check in with the locals. Yelp is one of the most popular apps for reviewing restaurants and businesses, with over 100 million reviews posted by users like you. If you pinch a roadside bite and need to know what's good, Yelp will help you find the perfect restaurant to fuel up and get back on the road. Download: Yelp (Free) GasBuddy fuel up is often one of the biggest costs you incur for road travel. GasBuddy will help you find the cheapest places to fill along the way. Not only is it an app that you'll want to use for road travel, but you may end up becoming an everyday user when you see the savings offered. All data is user generated, so if you see a cheaper gas price not included in the app, you can report the price in the app and contribute to the GasBuddy community. Download: GasBuddy (Free) Spotify What is road trip without some kick-ass driving music? Or maybe a podcast is more about speed? Regardless of what you want to listen to on long-distance drives, Spotify is the best streaming service you should use in 2018. Spotify has improved its free, ad-supported mobile app with made for You playlists, which are handpicked based on the songs and bands you listen to. With a premium subscription, you get full, unfiltered access to stream to more than 40 million tracks, as well as many curated playlists. You can also play really nice Android Auto, which allows hands-free control of all your music while you're on the road. Unless the co-pilot has already done the role of car DJ... Download: Spotify (Free) Netflix The latest update, which allows offline viewing on mobile devices, Netflix suddenly became the go-to app for parents hoping to distract young people from the back, without having to worry about all the data. Do you have a large amount of kid-friendly content to download for offline viewing that will help you keep the shouts of the there we are? To the minimum. Charge a phone or tablet with your kids' favorites and expect the quietest journey you've ever enjoyed. It's also a great way to keep adults quiet. A subscription is required, of course, but if you don't already have one, you certainly know someone who doesn't. Download: Netflix (Free) Where does it go? How do you plan your road trips? Is there an app we haven't noticed? Let us know in the comments! Update in June 2018: Updated with some of our summer 2018 tips. Drive safely out and have fun! Mi Earn commission on purchases using links. Find out more. Go to the header. Jump to the main content. Jump to the footer. A huge number of smartphones apps that make it to petrol stations, roadside restaurants and more hotel rooms are easy. But you'll get more miles from our favorites. They'll guide you around traffic jams, help you deal with your emergency, and point you toward scenic hiking trails. Everyone's free. See slideshow: The best cars on Long Road Trips One for the road. With gas prices painfully high, finding cheap fill-ups and avoiding traffic snarls will keep your wallets and passengers happy. Tell GasBuddy (Android, BlackBerry, iPhone and Windows Phone; it also works on iPads, as do most Apple apps) your location and displays the lowest fuel prices nearby. The system relies on user updates. If you own an electric car, download CarStations (Android, iPhone) to find charging stations. In the last report, the app listed more than 4,000 locations. GPS apps are a dime a dozen and you may already have a device built into your car. But for additional navigational muscle, check out AAA's TripTik (Android, iPhone), which reinforces its directions by including AAA-approved restaurant, repairs and campsites, plus gas prices and directions to more than 2,000 charging stations. Waze (Android, iPhone, select BlackBerry, Nokia and Windows phone) captures users' location, speed and other data to create a constantly updated map with traffic jams, speed traps and construction delays. Tours and bites. If you're tired of gas station hot dogs and billboard landscapes, these apps will provide some relief. Stretch those tight legs on the hiking trails marked by Sierra Club Trail Explorer (iPhone). The app is powered by AllTrails.com and gps to alert you to the nearest roads. Tell Goby (Android, iPad, iPhone) what you want — food, hiking, family fun — and list nearby options. Enter any city, city, or region in the United States, and Goby gives you the option to add or be nearby. This can be sorted by options: distance, date or price, or via your entertainment feed, with a list tailored to your interests (manually entered or synced with Facebook). TripTik (Android, BlackBerry, iPhone, iPad, Windows Phone) allows you to create a route that you can share with others and sync it with your phone's calendar. For your itinerary, simply forward confirmation of hotels, restaurants and entertainment to the app. Sleep cheap. Book last-minute accommodation directly through these apps and get generous discounts. Priceline's meeting room app (Android, iPad, iPhone) includes Name Your Own Price, up to 60%. Tonight-Only Deals (only available on Apple products) allows you to book a room on the required day. Rooms are 40% discounted and can be booked in 11 minutes. For spur-of-the-moment deer to the city, download Hotel Tonight (Android, iPad, iPhone). You will find up to 70% discount 35 hotels in the city. In case of emergency. These apps will be worth recording after an accident to capture the necessary information, photos of damage and call for help. Nationwide (Android, iPhone) includes a form for recording and replacing gps to log the location of the accident and to take photos of the injury. National customers can use the app to start reporting right away. roadside Assistance Lite (Android) gives you an accident checklist and instructions for taking crash scene photos.
